Net Relationship Value (NRV) is an aggregate of the average value of certain relationships you hold with us, calculated on a monthly basis. It not only considers the savings balance in your account but also includes your fixed deposits (FD's), investments & insurance policies taken through Citibank.

Below is a working example of how the NRV is calculated:

Holdings	INR	Description
a) Current/Savings Account	10,00,000	Average for the month, calculated based on total of daily end of day balance/total number of days.
b) Fixed Deposit	30,00,000	Daily end of day balances of principal amount/total number of days.
c) Mutual Funds	35,00,000	Daily end of day balances/total number of days.
d) Insurance Premium	50,000	Sum of total Insurance paid.
Average Monthly Relationship Value	75,50,000	a+b+c+d

**Towards active individual life insurance policies with the account holder as proposer.

W.e.f. 1st April 2015, you will get an additional one month to build up your Net Relationship Value (NRV) in case it falls below the required threshold. Further, we have revised the NRV non-maintenance charges to only 1% of the NRV shortfall or Rs. 400, whichever is lower, applicable only if you are not able to maintain the NRV by the end of the next month. The shortfall will be calculated on the higher NRV maintained across the two consecutive months.

For Example: Account with monthly NRV threshold = Rs. 40,000;

Your monthly NRV is Rs. 10,000 and hence, shortfall = Rs. 30,000 -> Charge levied on your account @ 1% of Rs. 30,000 or Rs. 400, whichever is lower; therefore, charge = Rs. 300.

Please note that the above example is for illustration purpose only.

To know more on how to build up your NRV and to help you understand the above changes better, please visit www.citi.co.in/nrvfaq.htm.
