

NAS FOUNDATIONS ASSESSMENT

Instructions: Select a single answer from all questions where the answers are preceded with parenthesis "()". Select one or more answers from all questions where the answers are preceded with brackets "[]". For any matching questions, enter the letter of the corresponding matching item inside of the brackets provided.

#	Question
MAIN QUESTION SET	
1.	What is the name of the proprietary operating system installed on the Celerra Data Movers? ☐ ARP access ☐ CIFS access ☐ DART ☐ RARP
2.	A NAS solution is most appropriate for what type of data environment? ☐ Deterministic access ☐ Rapid access ☐ Secured access ☐ Shared access
3.	Which network component provides connectivity between the network media and the computer's internal bus? ☐ Hub ☐ NIC ☐ Router ☐ Switch
4.	Which connection oriented protocol is most often used to transport data between nodes? ☐ CIFS ☐ NFS ☐ TCP ☐ UDP
5.	What network entity is primarily used to resolve host names and IP addresses? ☐ Default router ☐ DHCP Server ☐ DNS Server ☐ PDC
6.	Which type of volume needs to be created by the Celerra to support a Celerra Filesystem? ☐ Celerra Meta Volume ☐ CLARiiON Meta Volume ☐ Symmetrix Meta Volume ☐ Veritas Meta Volume
7.	When is network access to a file system permitted? ☐ file system is created ☐ metavolume is recognized ☐ share or export is discovered ☐ share or export is published

#	Question
MAIN QUESTION SET (Continued)	
8.	What is one way that a windows client can gain access to a network file system? ☐ Map a drive ☐ Mount a drive ☐ Mount a file system ☐ Publish a drive
9.	What Celerra feature allows a single Gigabit Ethernet port to service multiple logical LANs? ☐ Link Aggregation ☐ Quotas ☐ Trees ☐ Vlan Tagging
10.	Which Celerra feature provides for increased port availability? ☐ ISL ☐ Link Aggregation ☐ Vlan Tagging ☐ Zoning
11.	Which hardware component is used to install, manage and configure the Celerra? ☐ Array Director ☐ Control Station ☐ Data Mover ☐ Storage Processor
12.	What Celerra hardware component is used for client access to data? ☐ Array Director ☐ Control Station ☐ Data Mover ☐ Storage Processor
13.	What is the default filesystem format of a Celerra File System? ☐ FAT32 ☐ NTFS ☐ ufs ☐ udfs
14.	What is the maximum number of active Data Movers supported in the Celerra NS6XX range? ☐ 1 ☐ 2 ☐ 3 ☐ 4

#	Question
MAIN QUESTION SET (Continued)	
15.	Which member of the Celerra NS600 family supports both SAN and NAS environments and provides high availability? ☐ NS600 ☐ NS600S ☐ NS600G ☐ NS600GS
16.	Which member of the Celerra family provides an entry point NAS solution? ☐ Celerra CNS/ CLARiiON ☐ Celerra CNS/ Symmetrix ☐ NetWin200 ☐ NS600G
17.	Which TimeFinder Celerra replication solution provides an asynchronous point-in-time replication of the primary file system? ☐ TimeFinder/FS ☐ TimeFinder/FS Far Copy ☐ TimeFinder/FS Near Copy ☐ TimeFinder/FS Asynch Copy
18.	What backup infrastructure provides for only backup commands to pass over the corporate network? ☐ Differential backup ☐ Incremental backup ☐ NDMP ☐ Network backup
