

Class Configuration Sheet for SCM3

You may connect to the assigned resources through the Virtual Data Center gateway at <http://vdc.emc.com> using the accounts "SCM03-15" with the password "677370".

If you have any questions or encounter any problems, please call our help line at 508-346-6450.

To avoid connection problems, please be sure that any local client-side firewalls and pop-up blockers are disabled.

Here is the procedure for accessing your configuration via the gateway:

- 1) Launch a Microsoft Internet Explorer browser session.
- 2) Connect to <http://vdc.emc.com>
- 3) Enter your assigned account information in the username and password fields.
- 4) Click "Log In."
- 5) Double click the icon for the published application that you have been assigned.
- 6) Logon to the console of the selected host with the credentials provided by your instructor.

When you have completed your lab exercises on the device, please logout of the host.

Your Student Group Number (SGN)

Please use the number of your assigned login host.

Student machines	
Hostname	IP Address
Student15	192.168.1.215

Host Information

Hostname	IP address	Local SYMM
